Strategy: On Tuesday, the bulls made a comeback, pushing the benchmark KSE-100 index up by 447.91 points to close at 78,987.09. This move suggests that the bulls are poised to challenge the resistance zone between 79,189 and 79,317. If the index breaks above 79,317, the rally could continue towards 79,571 – 79,812, with 80,050 as a potential target. Immediate support is found between 78,784 and 78,600. Failing to maintain 78,600 could risk a drop to 78,415 – 78,169. Trading is advised with caution below 77,480, targeting the 79,189 – 79,317 and later 79,571 – 79,812 levels.
